

Adamsnet - Hydra

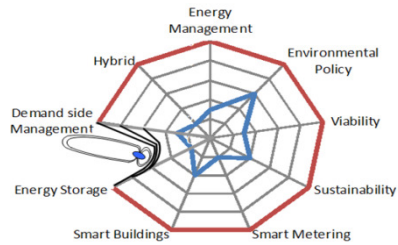

Ultrasound Diagnostics

FFT Analysis

Horizontal
angularity

Adamsnet - Hydra

Typical Ultrasound application areas

Leak detection

- Pressure or vacuum, any type of gas
- Heat exchangers
- Tanks and boilers
- Window seal inspections

Valve inspection

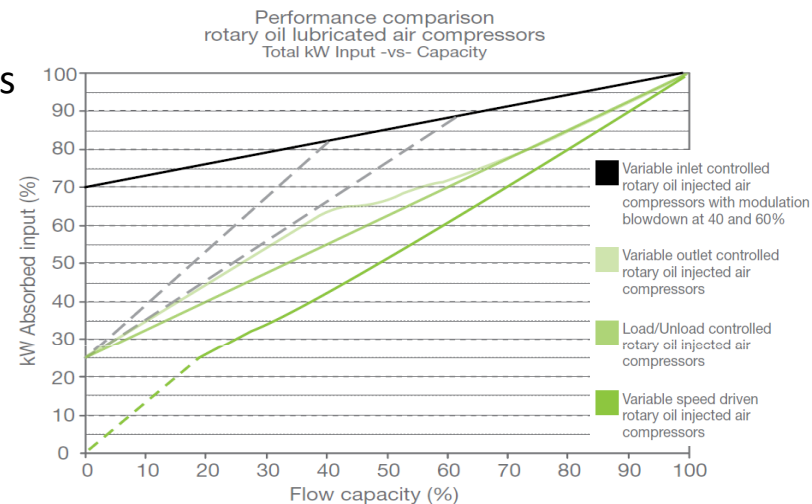

- Valve leak detection
- Steam trap inspection

Mechanical inspection

- Condition monitoring of bearings
- Condition based lubrication
- Pumps for cavitations
- Conveyor belt systems

Speciality solutions for:

- Automotive WNWL
- Aircraft inspections
- Marine hatch testing
- Rail roads

Electrical inspection

Discharge testing on:

- Switchgears
 - Power lines & isolators
 - Transformers
 - Circuit breakers
- (Tracking, Arcing, Corona & mechanical looseness)
